ASSIGNMENT OF INTEREST IN INTELLECTUAL PROPERTY

This Assignment is made on June 6, 2003, by Hercules Incorporated ("Hercules"), located at 1313 North Market Street, Wilmington, DE 19894, to and for the sole and exclusive benefit of the Arizona State University, of Tempe Arizona ("ASU"), which is tax-exempt state research university under §115 of the Internal Revenue Code.

RECITALS

Hercules has developed certain inventions, as described or claimed in the patent applications identified in attached Schedule A.

Hercules desires to transfer its rights in such inventions and such patent applications to ASU, , any continuations or divisions based thereon, along with rights to any patents ensuing therefrom, any reissues or reexaminations based on any such patents, all foreign applications filed thereon, and patents granted therefrom, and including the right to claim priority under the International Convention (all collectively referred to as the "IP").

ASU is a tax-exempt state research university that wishes to acquire the IP for further development and exploitation along with ASU's pre-existing intellectual property and technical know-how. Hercules has agreed to donate the IP to ASU on the terms set forth below, in order to permit ASU to add the IP to its knowledge base for such purposes.

June 04, 2003

NOW, THEREFORE, the parties agree as follows:

1. Assignment. By signing below, Hercules assigns and conveys to ASU, its successors, assigns and legal representatives, the exclusive and entire ownership interest of Hercules in the IP, to be held by ASU, its successors, assigns and legal representatives, as it would have been held by Hercules had this assignment not been made (including all accrued rights of action, royalties and damages from any past or existing infringement or misappropriation of the IP). Hercules represents and warrants to ASU that it is the sole owner of the IP and that the IP is unencumbered by any liens, security interests, licenses, (WE will need to get the liens removed before signing this) rights to practice, options to license or purchase, claims, or any other encumbrances or adverse interests. Hercules acknowledges that it will retain no ownership interest or other claim to the IP following the execution of this Assignment. This assignment will be effective for the United States of America and for all foreign countries. Hercules makes this assignment as a donation to ASU. Subject to applicable laws and regulations and the policies and procedures of the Arizona Board of Regents and of the Arizona State University, ASU, , will execute any reasonable additional documentation that Hercules requests for its record-keeping purposes to confirm the donative intent of this assignment and ASU's status as a tax-exempt state research university. Hercules authorizes and requests and agrees to further authorize and request the Commissioner of Patents to issue all Letters Patent issuing from or as part of the IP to ASU, for its interest as ASU, its successors, assigns and legal representatives. Hercules, at the expense of ASU, shall execute any papers, provide any information and testify in any interference or litigation at the request of ASU, its successors, assigns and legal representatives, when deemed essential to ASU's, its successors', assigns' and legal representatives' full enjoyment, protection, enforcement and title to the IP and other rights transferred. Hercules shall,

June 04, 2003

upon request of ASU, its successors, assigns or legal representatives, and without further remuneration, execute any papers for the filing and granting of foreign applications and the perfecting of title of the IP and applications in ASU, its successors, assigns or legal representatives.

Hercules further represents, warrants and covenants to ASU that:

(i) Hercules is a corporation duly organized, existing and in good standing under the laws of the State of Delaware, with full right, power and authority to enter into and perform this Agreement;

(ii) the execution, delivery and performance of this Assignment does not conflict with, violate or breach any agreement to which Hercules is a party, any court order to which Hercules is a party or subject to or Hercules' certificate of incorporation or bylaws;

(iii) this Assignment has been duly executed and delivered by Hercules and is a legal, valid and binding obligation enforceable against Hercules in accordance with its terms;

(iv) as of the execution date of this Assignment, for each patent application included in the IP, such patent application is pending, has not lapsed, expired or been abandoned, that all annuities and maintenance fees and other amounts owed in any jurisdiction or country in connection with such patent applications are paid in full and no outstanding payments are due or past due in such jurisdiction or country for the patent applications in the IP;

(v) Hercules shall fully pay any invoices received before, n or after the execution date of this Assignment relating to or arising out of any fees or expenses related to or arising from the IP incurred

June 04, 2003

prior to the execution date of this Assignment;

- (vi) no patent applications within the IP have been involved in any reissue, reexamination, interference, opposition or equivalent or similar proceeding or in any litigation;
- (vii) To the best of Hercules' knowledge, practice by ASU under the IP would not infringe on the rights of any third party;
- (viii) Hercules does not own, possess, have any right, title or interest in any other patent or patent application or technical know-how not included within the IP which would be infringed by the practice or commercialization of the IP (including without limitation the development, manufacture, use, importation, exportation, offer for sale or sale of the any product or process covered by the IP). If Hercules does own, possess, have any right, title or interest in any such patent or patent application or technical know-how, Hercules hereby grants to ASU a non-exclusive, world-wide, fully paid up, irrevocable, sub-licensable license under any such patents and patent applications and technical know-how (including the patents which issue therefrom or claim priority thereto) for the limited and sole purpose of the practice or commercialization of the IP (including without limitation the development, manufacture, use, importation, exportation, offer for sale or sale of the any product or process covered by the IP) ; and
- (ix) The valuation of IP was done by a third party for Hercules' benefit. ASU is not responsible for any information or omission of information contained in the valuation of the IP.

2. Acceptance. ASU hereby accepts this assignment of IP. Within one month of the execution of this Assignment, Hercules shall provide ASU a fully updated docket report for all of the patent applications included in the IP. The docket report shall include all deadlines upcoming in the three months following the execution date of this Assignment. Hercules shall make all prosecution files relating

June 04, 2003

to the IP immediately available to ASU. Within one month of the execution of this Assignment, Hercules shall have its patent counsel transfer all such files to ASU or patent counsel designated in writing by ASU. ASU shall have exclusive ownership of and the exclusive right to exploit the IP from and after the execution date of this Assignment, including without limitation, the right to prosecute patent applications in the United States and all foreign countries which describe or claim some or all of the IP.

3. Hercules Consultation. Hercules shall execute such additional documents as may be reasonably requested by ASU to document the donation and assignment of the IP to ASU, including without limitation, notices of assignment of the IP, including without limitation, the pending patent applications listed in Schedule A or included in the IP, and future patent applications. Hercules, at the expense of ASU, shall also make its personnel available to ASU, upon reasonable request and reasonable advance notice, for the purpose of consulting with ASU regarding the IP and all related technical know-how.

4. Indemnification and Limitation of Liability Hercules shall be responsible for, and shall defend and indemnify ASU, its affiliates, regents, officers, employees, agents and representatives against all losses, claims, lawsuits, proceedings, expenses, recoveries and damages, including reasonable legal expenses, costs and attorneys fees, arising out of: (i) any use of the IP by Hercules or its affiliates, employees or agents prior to the execution date of this Assignment; or (ii) any material breach of any representation or warranty given in this Assignment by Hercules; provided however, that: (a) ASU gives Hercules prompt notice of any such claim or lawsuit; (b) Hercules has the right to compromise, settle or defend such claim or lawsuit in accordance with the terms and conditions of this Assignment; and (c) ASU, at the expense of Hercules', cooperates with Hercules in the defense of such claim or lawsuit. ASU, at its expense, may participate in the defense of any such claim or lawsuit.
